

CADDLE

Job Title: React Native Developer

Reports To: CTO

Location: St. Catharines, ON

Who We Are

Caddle is a consumer insights and mobile engagement company that connects brands with their customers. We know what people buy, how they think, and help our customers sell more stuff. Caddle is a consumer platform where people can earn money for engaging with brands.

We're growing our technology team to satisfy the tremendous demand for the Caddle platform from both members (users) and clients. If you're able to be pretty independent and can remove most of your own roadblocks before they become major problems, you may have what it takes!

Duties and Responsibilities

- Build pixel-perfect, buttery smooth UIs across both mobile platforms.
- Ability to write well-documented, clean Javascript code
- Understanding of REST APIs, the document request model, and offline storage
- Participate and lead peer reviews of designs and related code prior to release (Pull Requests, etc)
- Ability to write High Quality Unit Tests
- Provide support to business users as required.

Minimum Qualifications and Skills

- College or University degree in Computer Science or a related discipline
- 4+ years software development experience
- 1+ years experience with React Native
- 2+ years experience with Android
- 2+ years experience with iOS
- Strong HTML & CSS Skills.
- Knowledge of OWASP Top 10 and how to reduce vulnerabilities
- Some experience with Test Driven Development (Red Green Refactor, Mocha + Chai)
- Knowledge of agile development / scrum / lean / kanban
